

Save my K-Love signal

K-Love continually aides in my salvation and makes me want to be a better person through it's positive programing.

I have overheard K-Love in cars next to me along with bumper stickers on many other cars in our town. I have been in businesses with

K-Love on in the background, providing a strong influence in our community. The entire country needs this positive and encouraging station. If you should stop broadcasting something let it be those

R-rated shows you allow on our televisions.

Thank you,
Ed Quinn
